BUSINESS REBOOT 2.0 (2025-2026) Event Report

By IEEE SVCE Student Branch
Conducted on 25th September,
2025

BUSINESS REBOOT 2.0 BROCHURE

A vibrant brochure for the 'Business Reboot 2.0' event. The background is a dark, swirling blue and orange vortex. In the center, a blue and orange phoenix with mechanical gears on its chest rises from a pile of dark, jagged rocks. The text 'IEEE SVCE STUDENT BRANCH' is in the top left, and 'SVCE' is in the top right. The main title 'BUSINESS REBOOT' is in large, glowing blue letters, with 'DISRUPT! REBUILD! REVOLUTE!' below it. Event details are listed on the left: date, time, and location. Event leads are listed on the right. A QR code is in the bottom left, and the registration fee and prize pool are at the bottom.

IEEE SVCE STUDENT BRANCH BUSINESS REBOOT 2.0 (2025-2026) - REPORT

Business Reboot 2.0 was convened on 25th September, 2025 at the Library Seminar Hall. The event witnessed enthusiastic participation from students across multiple disciplines, alongside the esteemed presence of faculty coordinators and judges, fostering an environment of innovation and intellectual engagement. The competition was designed as a strategic platform for participants to analyse real-world challenges, devise innovative business solutions, and present scalable models with potential for substantive impact. The proceedings exemplified the ethos of entrepreneurship, collaborative learning, and problem-solving, in alignment with the mission of the IEEE SVCE Student Branch to cultivate technical excellence and creative acumen among students.

The proceedings commenced with a formal introduction by Ms. Dharani, Content Team Head, who extended a warm welcome to the distinguished panel of adjudicators Dr. S. Kumaravel, Associate Professor, Department of Electrical and Electronics Engineering; Dr. G. Janakasudha, Associate Professor, Department of Computer Science Engineering; and Ms. L. Anju, Assistant Professor, Department of Electronics and Communication Engineering along with the Faculty Coordinators Ms. K. S. Pavithra, Ms. C. Gomatheeswari Preethika, and Mr. N. Suresh. Their presence and guidance contributed significantly to the academic rigor, evaluation integrity, and professional conduct of the event.

Welcome Address by the Content Team Lead

Following the welcome address, Mr. Shriram, Social Media Executive, outlined the structure and guidelines of the competition. This ensured that all teams were informed about the evaluation criteria, presentation protocols, and time management, thereby facilitating the smooth execution of the event.

Subsequently, participants were invited to present their business proposals before the adjudicating panel. The proceedings established an atmosphere conducive to intellectual engagement, fostering insightful discourse, pioneering concepts, and transformative ideas, thereby reinforcing the ethos of innovation central to Business Reboot 2.0.

The day's proceedings moved into the Conference Hall, where thirteen teams presented their innovative business proposals before the panel of three judges, comprising Dr. S. Kumaravel, Associate Professor, Department of Electrical and Electronics Engineering; Dr. G. Janakasudha, Associate Professor, Department of Computer Science Engineering; and Ms. L. Anju, Assistant Professor, Department of Electronics and Communication Engineering. Each team showcased unique ideas, combining entrepreneurial thinking with practical problem-solving, making for an engaging and dynamic session.

Team Impeccables Articulating their Business Proposal to the Jury Panel

Team Tesla secured the first prize for their impactful proposal to convert old vehicles into electric vehicles, aiming to tackle Delhi's rising pollution and reduce e-waste. Their plan included pilot testing 500 converted units with taxi drivers to evaluate ROI and feasibility while leveraging Mitsubishi Electric's existing connectivity infrastructure. Team Tesla's strategic foresight was further underscored by their integration of scalable technological frameworks, ensuring that the proposed retrofitting model could be replicated across diverse urban ecosystems with minimal infrastructural disruption. Moreover, their emphasis on data-driven evaluation and stakeholder collaboration demonstrated a comprehensive understanding of sustainable innovation, reinforcing the proposal's viability as a long-term solution to urban environmental challenges.

Team TESLA:

- Lakshan Vidhyuth LB - III EEE
- Harish BN - III EEE
- Sai Sriram – III AIDS

Team Tesla Elucidating to Judges

Team GenZ secured the second prize for presenting a customer-centric strategy that offered practical and scalable solutions to strengthen Zepto's operations. Their proposal directly addressed quality lapses and operational inefficiencies through a 100% replacement policy for incorrect deliveries and real-time inventory updates. Their methodology was further distinguished by the incorporation of predictive analytics and demand-forecasting mechanisms, enabling proactive decision-making and optimization of supply chain dynamics. Additionally, the proposal exhibited a nuanced understanding of competitive market landscapes, positioning customer satisfaction and operational resilience as pivotal drivers for sustained organizational excellence and long-term scalability.

Team GEN Z:

- Devadharshini S A – II ECE B
- R Krithika – II ECE B
- Thrishna R – II ECE B

Team GenZ Presenting Framework

Team Dynamic Duo earned the third prize for their creative concept, StreamSync for Disney+. Their idea focused on boosting user engagement through watch-together features, interactive community options, premium tiers, and virtual merchandising supported by brand partnerships. The proposal combined entertainment with monetization opportunities, offering Disney+ a fresh way to attract and retain viewers. Among the other participants, two teams stood out for their distinctive approach and exceptional pitching skills.

Team DYNAMIC DUO:

- Sunil Sukumaran - III CSE B
- Sarvesh Ragav-III CSE B
- Shashank N S -III CSE B

Team Dynamic Duo Outlining Engagement Strategy

Apart from winners, Team Impeccables impressed the judges with their well-structured proposal for Mahindra EV with Battery-as-a-Service, suggesting charging hubs at fuel stations, subscription-based battery swaps, and renewable energy integration to make EV adoption more practical and sustainable. Their detailed cost considerations and strong delivery made their pitch highly commendable.

Team Mavericks offered a fresh perspective on Amazon Prime Video, pointing out the confusing mix of rentals and subscriptions, a cluttered interface, and limited personalization. They proposed AI-driven activity-based recommendations, interactive features like polls and quizzes, and diversified ad-based SVOD models, along with virtual merchandising, to boost ROI and user engagement. The judges appreciated the clarity of their analysis and the creativity of their solutions, making their presentation stand out.

Team Mavericks Proposing Explicating Monetization

The Q&A session that followed was both rigorous and insightful, with judges questioning teams on return on investment projections, market feasibility, competitive analysis, and implementation timelines. Participants were challenged to justify their financial models, back their claims with supporting statistics, and demonstrate scalability of their solutions. The panel appreciated the creativity and effort shown by all teams while encouraging sharper problem–solution alignment and stronger data-driven justifications.

While the pitching sessions were being conducted in the Conference Hall, parallel activities were organized, including an interactive quiz hosted by Mr. Bharathraj, Joint Secretary, and a fun debate moderated by Mr. Abrar, Treasury Executive. These engaging sessions kept the participants intellectually active and created an energetic atmosphere leading into the valedictory.

Participant Interaction During Quiz Session

The valedictory session of Business Reboot 2.0 commenced with a poised and articulate address by Ms. Arthi, Content Executive, who formally welcomed the dignitaries, Dr. Sudhakar K. Bharatan, Head of the Department of Electrical and Electronics Engineering, and Dr. N. Kumaratharan, Head of the Department of Electronics and Communication Engineering, for their presence and continued support, Faculty Co-ordinators, and participants.

Valedictory Address by Content Executive

The announcement of winners was delivered by Ms. Sri Raja Rajeshwari, Chair, whose remarks highlighted the excellence, commitment, and ingenuity demonstrated by all participants. The prize distribution was formally presented to the winners by Dr. Sudhakar K. Bharatan, HOD – EEE and Dr. N. Kumaratharan, HOD – ECE in recognition of the outstanding performances and impactful contributions made by the competing teams.

Awarding of First Prize to Team Tesla

Team Genz Receiving Second Prize

Team Dynamic Duo Receiving Third Prize

The session concluded with an official vote of thanks delivered by Mr. Abrar, Treasury Executive. The Vote of Thanks included sincere gratitude to the IEEE Student Branch Counsellor, Dr. KR. Santha, for her constant motivation, guidance, and unwavering support, which contributed significantly to the success of the event. His address conveyed sincere appreciation to Heads of the Departments, faculty coordinators, judging panel, participants for their active involvement and innovative ideas, and organizing committee members, acknowledging the collaborative effort and unwavering dedication that contributed to the resounding success of the event.

Business Reboot 2.0 has proven to be a dynamic and intellectually stimulating platform for students to engage with real-world business challenges, propose innovative and scalable solutions, and develop viable business models. The event effectively fostered critical thinking, strategic collaboration, and entrepreneurial acumen—laying a robust foundation for the emergence of future leaders in the business landscape.

Business Reboot Event – 25th September, 2024

6th November, 2025

Submitted to The Principal

Respected Sir,

Sub: Reimbursement of expenditure for Business Reboot Event. -reg

The IEEE Student branch has organized intra-college competition "Business Reboot" on 25th September, 2025. With the registration fee of Rs.100/- per team, fourteen teams have participated in the event Rs. (100 x 14) = Rs.1400/- were paid by the teams directly into the college account.

The estimated budget for the conduct of the event which has been approved by the Principal on 22/09/2025 is Rs.5000/- (Approval letter enclosed). The actual expenses incurred for the conduct of the program is depicted in the following table.

Sl.No	Item Name	Bill No	Amount (in Rupees)
1	First Cash Prize	Voucher 1	1500/-
3	Second Cash Prize	Voucher 2	1000/-
4	Third Cash Prize	Voucher3	500/-
5	Certificates	858	350/-
5	Refreshments	5420	600/-
	Total		Rs.3950/-

The above expenses were borne by the IEEE Coordinators of the event. So, it is requested that the amount spent shall be reimbursed

Thanking you,

K.R. Santh
